Experience

Jamestown-Yorktown Foundation, Williamsburg, VA

Fall 2025 - Spring 2026

Museum Educator; Part-Time: ~30 hours/week

- ❖ Lead interactive, discussion-based programming for K-12 groups, fostering engagement and historical thinking
- ❖ Adapted lessons for diverse audiences and managed group dynamics to ensure inclusive, participatory learning
- ❖ Collaborated in the development of educational materials to align with learning goals and the museum's mission

The Highlands School, Bel Air, MD

Fall 2023 - Summer 2024

Substitute Teacher; Part-Time: ~24 hours/week

- ❖ Delivered individualized instruction and assistance to small groups of students with learning differences
- ❖ Maintained a supportive, structured classroom environment to ensure educational continuity and achievement

Margaret Beeks Elementary School, Blacksburg, VA

Fall 2022

Student Teacher; Part-Time: ~6 hours/week

- ❖ Led weekly poetry workshops for 4th-grade students as part of the service-learning course Community Writing
- ❖ Developed and delivered age-appropriate lessons focused on creativity, self-expression, and literacy skills

US House of Representatives, Washington, DC

Summer 2022

Office of Congressman Robert C. "Bobby" Scott

Legislative Intern; Full-Time

- ❖ Researched and summarized complex legislation and briefings for use by the legislative staff in policy decisions
- ❖ Drafted policy briefs and recommendations to Congressman Scott, which led to his co-sponsorship of several bills
- ❖ Assisted in writing three speeches entered into the Congressional Record by Congressman Scott

Wireless@VT, Blacksburg, VA

Summer 2021 - Winter 2022

Undergraduate Research Assistant; Part-Time: ~18 hours/week

- ❖ Researched and presented findings of cutting-edge 5G network communication using software-defined radios
- ❖ Researched and produced reports on artificial intelligence models to assist in network mapping and security
- ❖ Collaborated with engineers to apply research to an edge computing platform for use in unmanned aerial vehicles

Raytheon Intelligence and Space, Blacksburg, VA

Fall 2020 - Summer 2021

Hume Center for National Security and Technology

Research Fellow; Full-Time

- ❖ Authored technical reports and presented research on high-dimensional cluster analysis of software mutant data
- ❖ Received hands-on ITAR-level traineeship in cybersecurity from Hume Center faculty and Raytheon engineers
- ❖ Learned contemporary tools and techniques for applied machine learning, artificial intelligence, and cybersecurity

Converge Workplace, Billings, MT

Summer 2020

Full Stack Software Engineering Intern; Full-Time

- ❖ Drafted and implemented UI/UX design documents for the development of a web-app for a growing user base
- ❖ Implemented and documented CI/CD workflows and NoSQL server structures for easy and efficient deployment
